

ACT BEFORE IT'S TOO LATE...

**Hornibrook &
Sprint Networks**

**Partnering To Revamp
Cyber Security**

BACKGROUND

Hornibrook NGI in PNG had the need to improve its cyber security posture within its headquarters in PNG. This was an urgent requirement as Hornibrook personnel understood the importance of implementing a concrete defence against cyber threats as the business reputation, trust and customer data was on the line.

With the requirement in mind, Sprint Networks team drew up a complete cyber security solution that not only plugged vulnerabilities within the network, but also implemented a system to continuously monitor its endpoint devices to scan for any prevailing threats.

OUR SOLUTION

The proposed solution comprised of a Fortinet Next Generation Firewall (NGFW) at Hornibrook HQ and FortiClient endpoint protection for each device at Hornibrook. A Fortinet solution was proposed mainly due to its impressive NGFW features, palatable price and ease of management.

Furthermore, for a complete peace of mind for Hornibrook personnel, Sprint Networks offered the solution as a monthly managed service. This not only gave all the cyber security hardware needed upfront to Hornibrook with zero upfront cost but also saw that Sprint Networks security engineers managed and monitored the entire security posture of Hornibrook for a nominal monthly price.

FortiClient
Endpoint Protection

OUTCOME

With the urgent nature of the project, Sprint Networks was able to architect, configure and deploy the entire solution in under three weeks. This was possible due to Sprint Networks taking a "customer first approach" instead of a "money first approach".

Following implementation, the solution has successfully stopped all cyber threats directed at Hornibrook. Sprint Networks will continue to monitor and work beside Hornibrook personnel to improve its cyber defence in the years ahead.

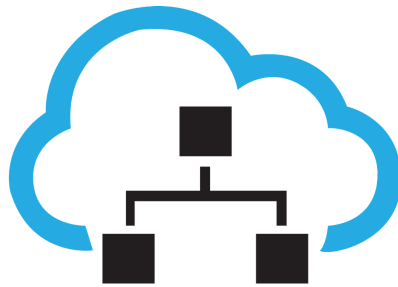

— “ —

WE WERE IN DIRE NEED OF A SECURITY SOLUTION THAT WOULD BEST FIT OUR NETWORK AND SPRINT NETWORKS GAVE US A SOLUTION THAT DID THAT AND MORE. THE TEAM AT SPRINT NETWORKS ARE PROFESSIONAL, FRIENDLY, AND EXTREMELY KNOWLEDGEABLE.

I WITHOUT HESITATION WOULD RECOMMEND SPRINT NETWORKS TO ANY COMPANY LOOKING FOR PROFESSIONAL NETWORK SECURITY SOLUTIONS.

STEPHANIE EKA - HORNIBROOK NGI
